

# PLAY PUUKKOJUNKKARIT EXPERIMENTAL WITHOUT WATERMARK

1. Download the mod:  
<https://steamcommunity.com/sharedfiles/filedetails/?id=3320859623>
2. Make sure the mod is downloaded in Steam
3. Start DayZ Experimental
4. In the Experimental launcher, select “MODS” in the left hand list. Then click on the “Local mod”

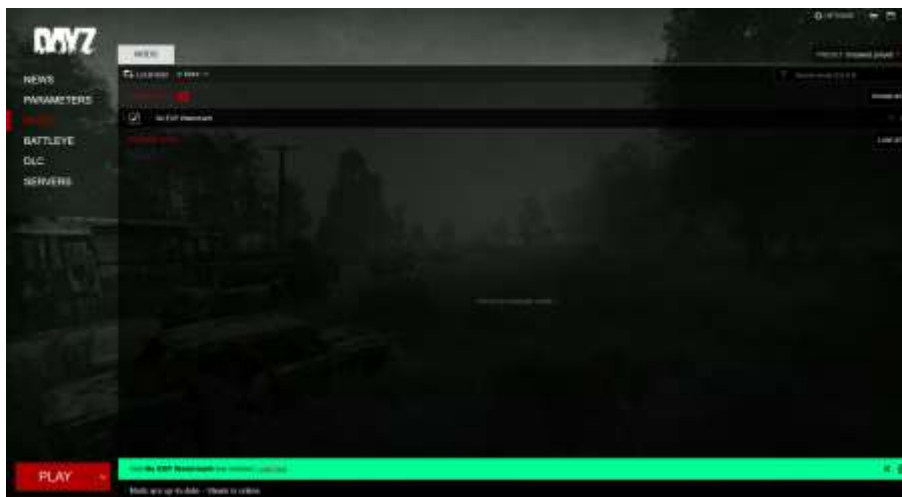

5. Select your stable release of DayZ mod folder, usually: [x]:\Program Files (x86)\Steam\steamapps\common\DayZ\!Workshop.  
Look for and select the @No EXP Watermark folder

6. The mod should now be visible in the DayZ Experimental launcher MODS panel.

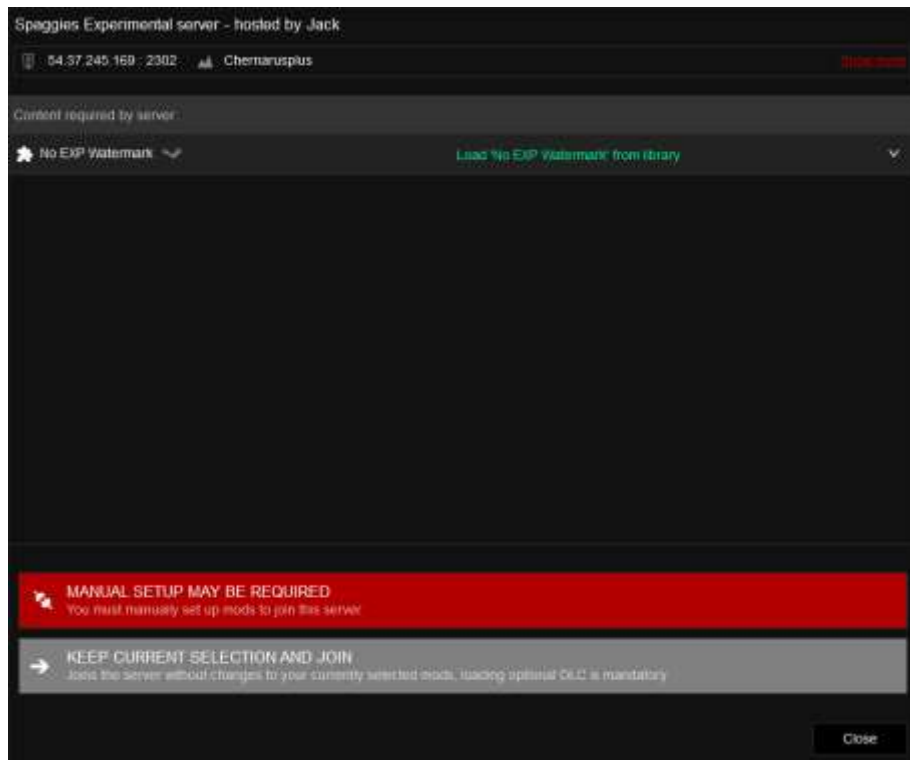

7. Click the checkmark to load the mod in the launcher

8. Search or find Spaggies Experimental server.

9. Click JOIN, and since you've already loaded the mod. Simply press "KEEP CURRENT SELECTION AND JOIN"

10. Enjoy playing DayZ EXPERIMENTAL without clutter on your screen!

Cheers LIVINGxDEAD
